

Capital Disclosures Template – Explanatory Note

1. To facilitate international comparison, an authorized institution (“AI”), in making disclosures based on this template, must reproduce all rows (i.e. from number 1 to number 85) except for the subdivisions of rows under row numbers 26, 41 and 56 (e.g. 26a, 26b, 26c etc) where the AI may select or insert rows to include items that are applicable to it. Where the item described in any particular row is not applicable to an AI (e.g. because the AI does not have the item or the item is not applicable to Hong Kong), the AI must still retain the row and include an indication that the item is not applicable in its disclosures.
2. Certain emphases are incorporated in the presentation of the template to better explain its structure:
 - (i) Rows with item titles in italics are rows that will be deleted after all the ineligible capital instruments have been fully phased out (i.e. from 1 January 2022 onwards¹).
 - (ii) Shaded rows with borders indicate as follows:
 - A row shaded dark grey introduces a new section which provides details of a certain component of regulatory capital.
 - A row shaded light grey, with no thick border, represents the sum of cells in the relevant section above it.
 - A row shaded light grey, with a thick border, indicates a key component of regulatory capital and the regulatory capital ratios.
 - A row shaded yellow represents an item that is not applicable to Hong Kong.
3. The table below provides a detailed explanation of the item in each row of the template. Where appropriate, references to relevant sections of the Banking (Capital) Rules (“BCR”) are also included for ease of reference.

¹ According to paragraph 94(g) of the Basel III text, recognition of capital instruments that no longer qualify as non-common equity Tier 1 capital or Tier 2 capital will be capped at 90% of the notional amount of such instruments outstanding on 1 January 2013, with the cap reducing by 10% in each subsequent year (i.e. until 1 January 2022).

In this regard, an AI should make disclosures in accordance with those notes.
