

Part IIIf: Risk-weighted Amount for Credit Risk (Additional Risk-weighted Amount for Cryptoasset Exposures)

Division A Group 1 Cryptoasset Exposures

A.1 Infrastructure risk add-on

(HK\$'000)

| Item | Types of Group 1 Cryptoassets<br>(1) | Risk-weighted Amount<br>(2) |
|------|--------------------------------------|-----------------------------|
| 1    |                                      |                             |
|      |                                      |                             |
|      |                                      |                             |
|      |                                      |                             |
|      |                                      |                             |
|      |                                      |                             |
|      |                                      |                             |
|      |                                      |                             |
|      |                                      |                             |
| 2    | Total                                |                             |

A.2 Risk-weighted amount for the risk of default of the redeemer or the risk arising when intermediaries perform the redemption function (For group 1b cryptoasset exposures that are assigned to the trading book)

(HK\$'000)

| Item | Types of Group 1b Cryptoassets<br>(1) | Risk-weighted Amount<br>(2) |
|------|---------------------------------------|-----------------------------|
| 1    |                                       |                             |
|      |                                       |                             |
|      |                                       |                             |
|      |                                       |                             |
|      |                                       |                             |
|      |                                       |                             |
|      |                                       |                             |
|      |                                       |                             |
|      |                                       |                             |
| 2    | Total                                 |                             |

**Division B      Group 2 Cryptoasset Exposures**

**B.1      Risk-weighted amount for the risk of default of the redeemer or the risk arising when intermediaries perform the redemption function (For group 2a cryptoasset exposures that relate to stablecoins and are assigned to the trading book)**

(HK\$'000)

| Item | Types of Group 2a Cryptoassets<br>(1) | Risk-weighted Amount<br>(2) |
|------|---------------------------------------|-----------------------------|
| 1    |                                       |                             |
|      |                                       |                             |
|      |                                       |                             |
|      |                                       |                             |
|      |                                       |                             |
|      |                                       |                             |
|      |                                       |                             |
|      |                                       |                             |
| 2    | Total                                 |                             |

**B.2      Risk-weighted amount for group 2b cryptoasset exposures**

(HK\$'000)

| Item | Types of Group 2b Cryptoassets<br>(1) | Risk-weighted Amount<br>(2) |
|------|---------------------------------------|-----------------------------|
| 1    |                                       |                             |
|      |                                       |                             |
|      |                                       |                             |
|      |                                       |                             |
|      |                                       |                             |
|      |                                       |                             |
|      |                                       |                             |
|      |                                       |                             |
| 2    | Total                                 |                             |

**Division C      Group 2 Cryptoasset Exposure Ratio and Add-on**

| Item |                                    | (in %) |
|------|------------------------------------|--------|
| 1    | Group 2 cryptoasset exposure ratio |        |

| Item |        | (HK\$'000) |
|------|--------|------------|
| 2    | Add-on |            |
